Dear,

I take immense pleasure in welcoming parents and inviting pupils to Aadeshwar Academy. This institution has a sound reputation being a school for 'Holistic Development' of children. The school has emerged as a pace setter in education by emphasizing on multidimensional approach to the development of the students by catering not only to the cognitive domain, but also exposing the students to new vistas of Physical, Emotional, linguistic creative and spiritual learning. Beside this, excellent opportunities to participate in cultural and sporting arena are made available.

We impart a value based education so that our pupil rise to shoulder responsibilities and thus acquiring leadership qualities by confronting new challenges in the changing environment. The intra- school & inter school events help them to exhibit their talents and also become instrumental in their skill development, Social growth & community involvement.

Awakening of the inner talents of children is a continuous process with proactive and creative roles performed by teachers as well as parents. This objective can be best realized under the condition of the teacher adopting the role of a guru like Drona, the student adopting the role of shishya like Arjuna and the parent adopting the role of a Mentor like Bhishma.

With these words, I once again welcome you to Aadeshwar Academy fraternity.
